Scanner check-off

Full Harvest Inventory

Name: Clock-in number: Team: Date:

	CAN DO IT ON THE WALL	DONE
1	**Signs on** — Team card into Team number, then their badge — or one badge alone on a cycle count	☐
2	**Follows Next bin** — Scans the rack label of the spot in front of them, every time	☐
3	**Rack · pallet · quantity** — Types the cases that are really there, not what the label says	☐
4	**Several pallets in a spot** — Counts every one before moving on	☐
5	**An empty spot** — Bin is EMPTY, then Yes	☐
6	**Two labels on one pallet** — This pallet has more than one label, each label with its cases, Done	☐
7	**A torn label** — Label will not scan → types it on the scanner's keys	☐
8	**No label at all** — Label will not scan → Nothing readable on it	☐
9	**A pallet not on the list** — Count it anyway? → YES	☐
10	**A mistake** — Back before the line is saved; History → Void after, and goes back to that bin	☐
11	**A second count** — Counts the spot blind; Bin done when there are fewer pallets than expected	☐
12	**SOS or Report a problem** — Knows which is which, and that SOS with no signal is not sent	☐
13	**No Wi-Fi** — Keeps counting; signs off only with nothing queued	☐
14	**Finishing** — Tells the supervisor; Sign off this scanner; scanner on the charger	☐

Trainer: _____ Signature: _____

The trainer ticks each one as the person does it on the training wall, on a real scanner. All ticked: trained — tick them on the Training roster too.
