# Scanner quiz

Circle one answer. Then the trainer goes through the answers with the group.

Name: _____

1. **The label says 48 cases. You count 45. What do you type?**
   A. 48
   B. 45
   C. Nothing — tell the office
2. **There is nothing at all in the spot. What do you do?**
   A. Walk past it
   B. Scan the rack label, Bin is EMPTY, Yes
   C. Scan the next spot's label
3. **The pallet label is torn but you can read the number.**
   A. Skip the pallet
   B. Label will not scan → I can read it — let me type it
   C. Count it under the pallet next to it
4. **A pallet has two labels on it.**
   A. Count one label and add both quantities
   B. This pallet has more than one label — each label with its own cases
   C. Count it twice
5. **The scanner asks "Count it anyway?" for a pallet not on the list.**
   A. YES, and count it
   B. NO, it is not ours
   C. Take the label off
6. **The top of the screen says OFFLINE.**
   A. Stop and wait for Wi-Fi
   B. Keep counting — it sends when the signal is back
   C. Sign off
7. **You saved a line with the wrong number.**
   A. History → Void this line, then count that bin again
   B. Count the next spot twice
   C. Tell nobody
8. **Someone is hurt in the aisle.**
   A. Report a problem
   B. SOS — I need help, and get help
   C. Finish the aisle first
9. **Every spot in your aisle has a count.**
   A. Tap a button to finish the aisle
   B. Tell your supervisor — they mark it done
   C. Start the next aisle on your own
10. **A second count asks you to count a spot again. What were the first count's numbers?**
    A. You are told them
    B. You are not told — count what is there
    C. Ask the other team
